Il vetro rivela, riflette, crea un'affascinante compenetrazione tra interno ed esterno. A modulare questo dialogo è il vetro delle ante, disponibile nella versione Trasparente Extrachiaro, Fumé Trasparente o Satinato, Stop Sol, e nei tre colori dei vetri serigrafati Trama: caratteristiche estetiche differenti per ogni grado di trasparenza. L'anta è serigrafata con un'intrigante cornice nera. Alta e sottile, la maniglia a lama inclinata è realizzata in alluminio anodizzato nero, come il telaio, discreta e maneggevole sia con apertura a battente che scorrevole.

^{EN} Glass reveals, reflects and mingles the inside with the outside in the most fascinating of ways. The mediator of this dialogue is the glass door panel, in Extraclear Transparent, Transparent or Satin Fumé and Stop Sol finishes and in the three colours available for Trama screen-printed glass: different aesthetic features for varying degrees of transparency. The door sports an intriguing, black, screen-printed frame. The long, slim, inclined handle is made from black anodised aluminium matching the frame and is discreet and handy on both hinged and sliding doors.
