VITAE

Vitae integrates different materials and finishes into a single environment. Matt lacquered Fango, Dark Grey oak and a countertop in Classic Roman Travertine, either smooth or rough, for a striking materic effect.

**V**itae, new places, to inspire a powerful sense of sharing versatile spaces of relationships and well-being. A search for discipline and linearity in shapes combined with infinite modularity, interpreting a contemporary, light and harmonious lifestyle that gives room for imagination and freedom. This kitchen concept extends to different areas. Inside and outside: nature in symbiosis with the routine of daily life.

Details enhanced by natural materials such as stone and wood. A versatile style that plays, conceals and reveals at a glance. Spaces that speak of the experience of living, conveying vibrant design, full of emotions.

The table extends the countertop with an original interplay of opposites: the solidity of the stone and the lightness of the moulded top. The thin edge and the solid wooden leg detail make the table look as if it were suspended.

Wood also plays a starring role inside, with elegantly finger-jointed kitchen drawers and baskets. Available in two finishes: oak and walnut.

The design is completed by the extremely versatile kitchen appliances by Wolf, available in multiple hob types.

In Vitae, the modularity of the Yugen System by The Cut is extended with new shelves, providing ergonomic bottle positioning and innovative stem glass holder profiles.

**LINEARITY AND SIMPLICITY  
CONQUER EACH SPACE,  
TO SHAPE THE IDEA  
OF A NEW WAY OF LIVING.**

The interaction of smooth and  
slatted doors amplifies the expressive  
power of the design.

The slatted door is made of a MDF-covered aluminium honeycomb panel, which is later processed for a three-dimensional effect.

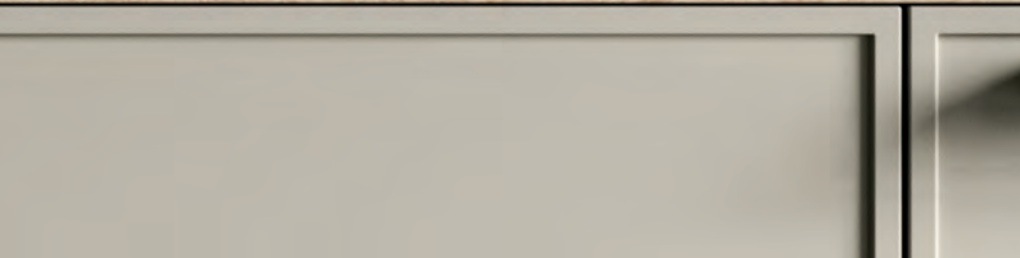

The customisation options are also available for wall unit insides, which are embellished with backlit glass shelves.

The bottom of the wall unit has a 45-degree cut-out ensuring an ergonomic grip on the door. At the back, the led profile provides brightness while enhancing the details.

A new fully equipped channel is concealed behind the stone back, improving space organisation. Practical electrical sockets are placed on the front.

Vitae features an original packet door system which conceals its contents and reveals them in an instant. The inside space can be equipped with great flexibility. Handle-free clean lines and storage modules with push-pull opening.

The Art door, in the same finish as the adjacent doors, makes for an original transition between two environments.

**PERFECT SYNERGY  
BETWEEN AESTHETICS  
AND FUNCTION.  
THE TASTE OF  
CONVIVIALITY TAKES  
SHAPE.**

The vertical wood veneer top system expands the customisation options with new bottle stop profiles. Maximum versatility, full customisation.

The vertical shelves and the Yugen System are perfectly integrated into the sideboard to help you achieve the best possible space organisation. The central travertine monolith is enriched with wood veneer storage compartments.

**DESIGNED TO CONVEY  
PASSION, EVERY DETAIL  
SAVOURS THE CHARM  
OF DAILY LIVING.**

Columns are equipped with Zen doors  
for an advanced synergy of glass and metal.  
The veneer frame and integrated  
stem glass holders add further elegance.

**FOOD BRINGS A  
DIFFERENT FORM OF  
SOCIALISATION THAT  
COEXISTS WITH NATURE,  
CONVEYING A SENSE  
OF FREEDOM.**

AWARDS  
WINNER

2019

The island in the outdoor kitchen is a monolith featuring a countertop, doors, sides and a sloping back. A highly scenic compact shape.

The sloping back makes the design dynamic while creating an area that fosters conviviality.

The leading element of the design is the dematerialised door equipped with an aesthetic stoneware panel and a handle, both integrated in an aluminium frame. The range also features glass, steel and marble finishes.

**TACTILE, EXCLUSIVE,  
DURABLE AND ELEGANT  
ASPECTS EMBRACE THE  
CHANGING COLOURS  
OF THE WORLD OUTSIDE.**

The new 316 stainless steel frames in the outdoor design ensure maximum strength and corrosion resistance.

Unique in its kind,  
the barbecue area smoothly integrates  
into the Zoe outdoor design.

Stainless steel Legrabox baskets and drawers feature ceramic bottoms and dedicated accessories for optimised inside space.

Vitae is about living  
the spaces in all their  
pure essence.

Connected with nature,  
surrounded by comfort,  
illuminated by beauty.
