

ARTOFORM

*"The object of art is to crystallize emotion into thought and then give it form"*

*~ Francis Delsarte*

At Art of Form, teamwork is not a structure, it is a shared rhythm. We are not bound as employees, but connected as partners; moving together with trust, understanding, and purpose.

Each of us is deeply aware of the strengths and limitations of the company, just as we are aware of our own. This quiet self-knowledge allows every voice to enter at the right moment, every idea to find its place. The result is a continuous, harmonious flow of creativity, like a beautifully written piece of music, where every note matters, and every silence has meaning.

Together, we compose not only spaces, but a way of working built on balance, respect, and soul. It is the spirit of unity, passion, and shared responsibility that endows Art of Form with its quiet strength and enduring distinction.

# How we do It

At Art of Form, curation is both our discipline and our devotion. We do not simply sell furniture; we curate lifestyles, guided by an intuitive understanding of rhythm, vision, and emotion.

We move through the world sensing beauty before it speaks, valuing quality not by its name but by its soul; for we do not chase names, we pursue meaning.

Within our portfolio unfolds a refined world of timeless design, where craftsmanship, comfort, and subtle excellence transform spaces into sanctuaries that are not only seen, but deeply felt. Working in true creative alignment, our team and collaborators think, create, and decide in seamless harmony, allowing us to interpret diverse design directions with equal sensitivity and to shape every project with the same integrity of care, regardless of scale.

What ultimately defines us is our ability to weave worlds together, allowing distinct aesthetics to converse, contrast, and unite into a single, effortless harmony, where individuality and unity coexist in perfect balance.

# Newness Reimagined

This new season unfolds with bold new arrivals.

New brands enter the Art of Form world, each carrying a distinct identity and an expressive design language that expands our universe and reshapes our creative dialogue with fresh intensity.

In a striking continuation of this narrative, we unveil the mesmerizing collaboration between Giorgetti and Maserati; where speed, precision, and sensual craftsmanship converge. This collection reawakens the familiar with dramatic force, transforming iconic forms into statements of renewed energy, elegance, and irresistible motion.

In a moment of profound recognition, we turn the spotlight toward our long-term partners, Paola Lenti and Missoni Home, through a curated presentation of their pieces. An elevated tribute to relationships forged by trust, refined through time, and driven by a shared creative heartbeat. These are not merely collaborations; they are pillars of our story.

And this is only the beginning. More beauty, greater depth, and daring explorations of form are yet to be revealed as the Art of Form journey continues to unfold.

## Where Italian living Drives you

The essence of Giorgetti design meets the automotive excellence of Maserati in a partnership that celebrates Italian savoir-faire and the quest for innovation. A meeting that redefines the contemporary living and travelling experience, combining over a century of tradition, creativity and know-how. The timeless elegance of Giorgetti merges with the dynamic and avant-garde vision of Maserati, in a project that celebrates the value of Made in Italy. Attention to detail, premium materials and a passion for innovation give life to an exclusive collection designed for those seeking unique experiences. A dialogue between art and functionality, between home and car.

## SCULPTED FOR LIVING

The Giorgetti Maserati Edition collection weaves myth and nature, drawing inspiration from Neptune's Trident. Evoking the sea's harmony, the power of winds, and the allure of underwater mysteries, it mirrors Maserati's spirit of elegance, dynamism, and movement.

The lighting of an environment, the right way to create atmosphere, corners in the spotlight and pleasantly lit areas - these are fundamental considerations when studying your space.

FORMITALIA

# FORMITALIA

Formitalia, established in 1968, is a world where furniture becomes pure lifestyle, offering refined creations that speak to every taste, from contemporary elegance to bold, fashionable statements.

With its mastery of leather, upholstery, and tailored detailing; the brand expresses a unique balance between Italian craftsmanship, comfort, and unmistakable glamour.

Chosen with care, Formitalia now entrusts its vision to Art of Form, and we are truly honored to welcome it into our curated universe, lovingly adding its distinctive character to our ever evolving array of international design voices, where diversity, expression, and individuality come together in perfect harmony.

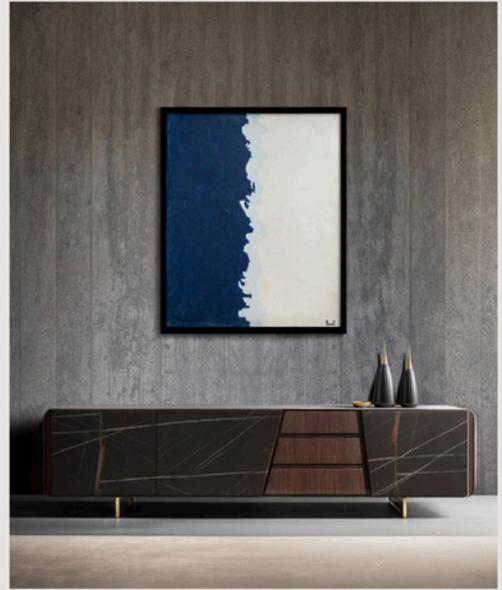

**Formitalia**, a historic and influential presence in the Italian design landscape, was founded in 1968 in Quarrata. Over the decades, the company has built a remarkable story of vision, intuition, and sustained success. Among its most distinctive achievements is the creation of the Mirabili brand, a project that intentionally dissolves the boundaries between art and design.

## BUILDING TRUST

The company's commitment to blending artistic expression with high-end design is further reflected in its prestigious collaborations and licensing agreements, most notably with Tonino Lamborghini and Aston Martin, fully embodying the aesthetic identity and creative spirit that define Formitalia's DNA. This vision extends naturally into the company's Florence gallery, where design pieces are presented in dialogue with contemporary art to highlight their expressive depth.

Their upholstered creations reflect the same balance of comfort, style, and artisanal precision that defines the company's broader design philosophy. The thoughtfully engineered forms come together to elevate everyday living spaces with a distinctive touch of contemporary sophistication.

Formitalia's design philosophy is grounded in a carefully curated material strategy that prioritizes proven quality and durability. Their collections often combine precious marbles, such as Calacatta Gold and Rosso Levanto, with finely worked woods like Canaletto Walnut or open-pore ash to create compositions that balance strength, longevity, and aesthetic depth.

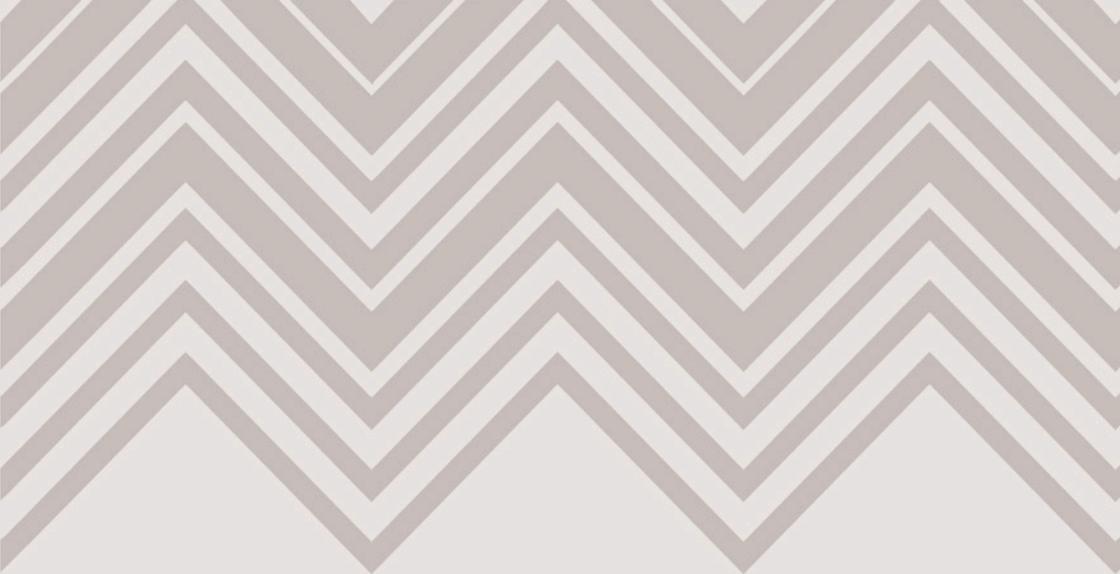

## MATERIALS THAT SPEAK

They also integrate metals with soft satin or polished finishes alongside leathers, nubuck, or high-end fabrics, offering over 200 finishes and color variants. This versatility allows the furniture to respond to different moods and contexts, from warm and inviting to bold and contemporary. In select sofa and seating designs, combinations of Nabuk leather framed by ash and accented with marble details emphasize both comfort and structural integrity while enhancing visual harmony. Formitalia's furniture and surfaces reflect a rigorous integration of material authenticity, functional performance, and aesthetic clarity.

The careful selection of materials, meticulous attention to finishes, and the interplay of texture, grain, and color create spaces that are both enduring and visually compelling. Historically, the brand's engagement with high-quality leathers and meticulous stitching, developed during its collaboration with Paolo Gucci in the 1990s, continuing to influence its current production. By combining exotic hides, specialized finishes, and artisanal techniques, Formitalia creates furniture that not only demonstrates technical excellence but also conveys a refined sensory experience, resonating with a sophisticated, design-conscious clientele.
